Shaping the Research Integrity landscape in the Netherlands: opportunities and threats

Mariëtte van den Hoven & Rita F. Alves dos Santos

What have we heard so far today?

- New themes and topics have entered the field (AI, open science, trust in science...)
- Debates on academic freedom and academic responsibilities are more prominent
- New perspectives and debates on RI are entering the field (research culture, RCR, researchers' assessment, power dynamics, academic freedom, cultural perspectives, ...)
- What's the impact on RI and RCR?

Nederlandse gedragscode wetenschappelijke integriteit

25 september 2025

Denk mee over wetenschappelijke integriteit

[Wetenschappelijke integriteit](#)

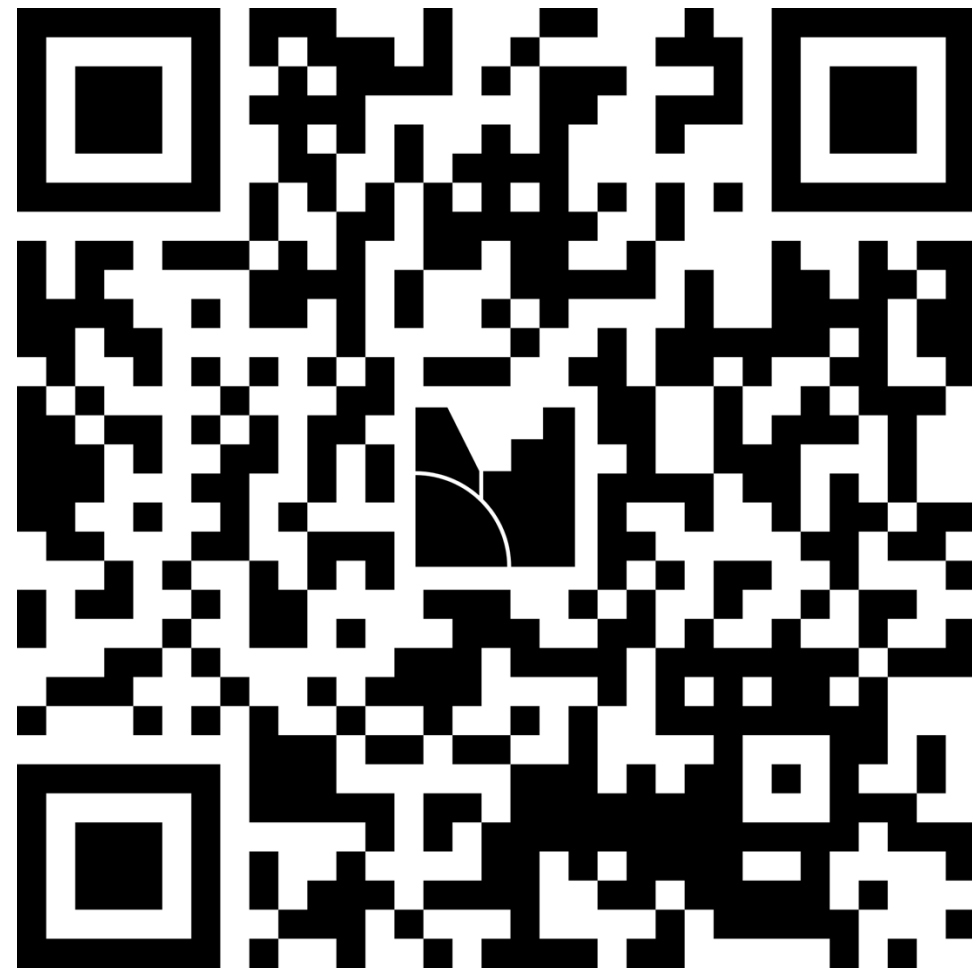

Voor onderzoekers aan de universiteiten, hogescholen, academische ziekenhuizen en een groot aantal onderzoeksinstituten geldt de 'Nederlandse gedragscode wetenschappelijke integriteit'. De huidige versie van die code werd in 2018 gepubliceerd. Eens in de paar jaar wordt bekeken of de code nog voldoet aan de eisen van het moment - denk aan ontwikkelingen rond AI of externe samenwerking. De uitkomst van de recente [evaluatie](#) was dat er veel waardering is voor de Gedragscode, maar dat die geactualiseerd en versterkt kan worden.

Send your feedback by 20th October 2025 to: consultatiengwi@knav.nl

Let's discuss this together...
